

# BANTLEON RETURN (PA)

Fund Report 31 August 2021

## Investment strategy

BANTLEON RETURN is a risk-averse bond fund that seeks to achieve attractive interest income and additional returns. The management of the fund is based on BANTLEON's immunisation strategy, which combines a variety of return components.

The fund's total return is comprised of the following components: Management of the average bond maturities ranging from normally 2 to 6 years, management of the yield curve, management of the sector and bond allocation based on good to very good credit ratings and inclusion of inflation-linked bonds on a temporary basis. The fund's managers invest particularly in government bonds and bonds issued or guaranteed by public sector or similar entities from the Eurozone as well as Pfandbriefe (covered bonds) and comparably safe Eurozone bonds. The fund incurs no foreign exchange risk.

The use of derivatives is limited and is for portfolio duration management purposes.
