

**Key Investor Information Document for investors**

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**Bantleon Opportunities S, a sub-fund of BANTLEON SELECT SICAV, class PT CHF (hedged), CHF**

WKN / ISIN: A1JVYT / LU0764660840

This sub-fund is managed by the BANTLEON AG (the »Management Company«), which belongs to the BANTLEON BANK Gruppe.

**Objectives and investment policy**

The sub-fund aims to generate a high regular income by consistently adjusting bond maturities and the equity exposure to the forecast capital market developments, while at the same time taking into account the principle of risk diversification, the security of the investment capital and the liquidity of the investment assets.

The sub-fund is an absolute return fund with a focus on high-quality bonds. The total return is made up of the following components:

- Management of average bond maturities ranging from 0 to 7 years
- Management of equity exposure ranging from 0% to 25% of the sub-fund's assets
- Management of the yield curve
- Management of the bond allocation based on a good to very good credit rating
- Inclusion of inflation-indexed bonds on an intermittent basis

The sub-fund invests in particular in government bonds and government-guaranteed bonds (global), in regional or local government bonds and covered bonds (OECD countries) as well as in corporate bonds and bonds issued by credit institutions (global) that have an investment grade rating of »Standard & Poor's« (»BBB-«), »Fitch« (BBB-«) or »Moody's« (»Baa3«).

In addition, up to 25% of the sub-fund's assets can be invested in equities of listed companies domiciled in an OECD country. The total of direct investments in equities and long positions via equity index futures may not exceed 25% of the sub-fund's assets. In addition, the sub-fund may sell up to maximum 25% of the sub-fund's assets in equity index futures.

These investments may entail currency risks in CHF, USD, JPY, GBP, AUD, CAD and HKD, which are largely hedged. Unhedged foreign currency positions may make up no more than 10% of the sub-fund's assets.

Derivatives transactions may be entered into for the purpose of hedging or efficient portfolio management or to generate additional returns.

The sub-fund is actively managed. It is not managed in reference to a benchmark.

Income shall remain in the sub-fund (or: in this unit class) and shall increase the value of the shares.

Investors may demand to redeem their units every normal bank business day in Luxembourg.

**This share class is currency-hedged meaning that, using derivatives, the base currency of the fund is to a large extent hedged into the share class' currency.**

**Risk and reward profile**

This indicator relies on historic data and cannot be used for a prediction of future developments. The categorisation of the sub-fund may change in the future and is not a guarantee. Even a fund in category 1 is not an entirely risk-free investment.

The sub-fund has been placed in category 3 because its share value fluctuates relatively little and therefore the chance of profit but also the risk of loss can be relatively low.

It may be that due to the calculation model not all risks are accounted for when placing the sub-fund in a risk category. An extensive description of the risks is included in the section »Information on risks« in the prospectus. The following risks have no direct bearing on the categorisation but may nevertheless be of relevance to the sub-fund:

- Credit risks: The sub-fund may invest a part of its assets in debt securities issued by governments and/or companies. The issuers of these debt securities may become insolvent which may result in the partial or full loss of the value of their debt securities.
- Currency risks: If the sub-fund holds assets in a currency other than its reference currency, investors are exposed to a currency risk. This can be reduced by means of hedging transactions.
- Risks from the use of derivatives: The sub-fund may use derivatives. This does result in both increased opportunities and increased risk of loss. The use of derivatives to hedge against losses may also reduce the profit opportunities of the sub-fund.
- Custody risks: Assets held in custody for safekeeping – particularly in other countries – may be subject to a risk of loss in connection with insolvency, violations of due diligence requirements or market abuse on the part of the custodian or a sub-custodian.
- Operational risks: The sub-fund may become a victim of fraud or other criminal actions. It may also suffer losses caused by misunderstandings or mistakes of employees of the management company or third parties or it may suffer damages caused by external occurrences such as natural disasters.

### Charges

One-off charges payable by the investors:

**Entry charge / Exit charge: 3.00% / 0.00%**

The entry / exit charge listed here is a maximum figure. In individual cases it may be lower. You may inquire about the figure applicable to you with the distributor of the units.

Charges taken from the Fund over the year:

**Ongoing charge: 0.95%**

Charges taken from the Fund under certain specific conditions:

**Performance fee: none**

The ongoing management and custody of the sub-fund's assets as well as the distribution of the shares are financed through the fees and other costs. Arising costs decrease the chances of return for the investor.

Investors who already hold shares in another sub-fund of the umbrella fund and/or shares in another share class of this sub-fund may convert to this share class. In the event of a conversion, a conversion fee may be payable up to a maximum of the subscription fee of the share class of a sub-fund into which the conversion is made. Due to legal restrictions, it may not be possible for all investors to convert into the share class of this sub-fund.

The ongoing charges figure shown here is an estimate of the charges. Due to recent change in the fees structure, an estimate is used rather than an ex-post figure. The ongoing charge may vary from year to year. The ongoing charges figure does not include Performance fees and charges for the purchase and sale of assets (Portfolio transaction costs). The annual report for each financial year includes details of the exactly calculated costs. Further information about costs can be found in the charges section of the prospectus.

### Past performance

**Past performance is not a guarantee for the future.**

**In this calculation, all costs and fees with the exception of the entry charge have been deducted.**

**The sub-fund was set up on 15.01.2008. This share class was set up on 04.06.2012. The sub-fund was merged with BANTLEON SELECT SICAV on 01.10.2021. The performance shown up to and including this date relates to the original sub-fund in the BANTLEON OPPORTUNITIES.**

**The past performance was calculated in CHF.**

### Practical information

Depository of the sub-fund is UBS Europe SE, Luxembourg Branch.

The prospectus and current reports, the current share prices and further information about the sub-fund or further share classes of the sub-fund can be found free of charge in German or English language on our homepage [www.bantleon.com](http://www.bantleon.com).
